## Preface

The National University of Educational Planning and Administration, known under different names/titles during the last five and half decades, after it was originally set up by the UNESCO in 1962 and was taken over by the Government of India in 1972, has been actively engaged in research, teaching, capacity building, rendering advisory services and consultancy to the governments and public organisations at sub-national, national and international levels. Over the long years of its existence and with its multifarious contributions during its several incarnations (we had undergone at least five incarnations), and with the support of the Ministry of Human Resource Development, Government of India, the institute emerged as a major think-tank and as an apex institution engaged in the area of educational policy, planning and administration from an inter-disciplinary and holistic social science perspective. On this occasion, I would like to acknowledge the contributions made by our earlier Directors/Vice-Chancellors and the past and current faculty in shaping this organisation to the present level. Particular mention may be made of the valuable contributions made by Sri A V Pai the first Director of the Institute, Professor M V Mathur, Professor Moonis Raza, Sri J Veeraraghavan, Professor Satya Bhushan, Professor Kuldeep Mathur, Professor B.P. Khandelwal, Professor Ved Prakash, and Professor R. Govinda. They have contributed a lot to the transition of the institute to the present shape.

Besides offering research and professional support and advisory services to the Government of India, various state governments and international bodies in their various research and policy related activities, the University continues to get engaged in capacity development of manpower in public education departments in the country and international levels, and during the last 10 years we trained about 28 thousand officers in about 600 training/ reorientation and other programmes. During the last one year itself, we could train about 4000 public servants in about 90 short term, medium and long term programmes.

During the last ten years after it became a University, as an additional accomplishment, the University could contribute to the society with high quality graduate manpower specialised in educational policy, planning and administration, by producing more than 90 M.Phil graduates and nearly 15 Ph.D graduates. Our research output during these years took the form of about forty books and a few hundreds of articles in refereed journals. This is in addition to quite a bit of voluminous research which remained unpublished for various reasons.

This short compendium gives an account of research contributions and a variety of capacity development programmes conducted by NUEPA during the first decade of the University, i.e., from 2006 to 2016.

I would like to place on record my deep appreciation of the efforts made by Dr. Naresh Kumar in preparing the compendium, and the assistance rendered by Shri Pramod Rawat and Shri Amit Singhal in the Publication Unit in bringing out it in this form.

**Jandhyala B.G. Tilak**  
*Vice-Chancellor (I/c)*
