EXPLANATIONS

1. The data contained in this publication is for the year 2009-10 (as on 30.09.2009).
2. The data is provisional and subject to revision after receiving comments from the States/UTs.
3. We are not getting data from the states of Jharkhand and Nagaland for the last two years. As no data has been received for the year 2009- 10 also, data for these two states have therefore been repeated from the year 2007-08
4. Madhya Pradesh has provided School data for classes IX-XII only and not for classes I-VIII. Hence, data for classes' I-VIII has been repeated from the year 2008-09.
5. Data has been received from Andhra Pradesh for classes I-X only and not for classes XI-XII. Hence data for classes XI-XII has been repeated from the year 2008-09.
6. Number of schools, student's enrolment and number of teachers shown by Kerala for the year 2008-09 and 2009-10 for classes XI-XII is abnormally low as compared to data for the year 2007-08. Hence, data for classes XI-XII has been repeated from the year 2007-08.
7. For Assam, Enrolment for classes I-VII provided by Department of Elementry Education and Enrolment for classes VIII-XII provided by Department of Secondary Education has been taken in this publication. It is presumed that enrolment for V-VII provided by Department of Secondary Education has been taken into account by Department of Elementary Education, while furnishing enrolment upto class VII.

Number of Institutions by Management and Number of Teachers & Enrolment by Type of Schools for Primary and Middle Schools has been taken from Department of Elementary Education and for High Schools and Intermediate Schools data has been taken from Department of Secondary Education.
8. Enrolment for classes' I-VIII (SC and ST) for Tamil Nadu has been repeated from 2008-09 as the data reported for these classes is abnormally low in 2009-10.
9. Many States viz. Andhra Pradesh, Assam, Goa, Gujarat, Jammu & Kashmir, Karnataka, Kerala, Madhya Pradesh, Meghalaya, Mizoram, Nagaland, Odisha, Tripura, Uttar Pradesh, Uttarakhand, West Bengal, Chandigarh, D & N Haveli have not shown number of Pre-Primary schools. It is not clear whether enrolment in pre-primary classes is included in class I.
10. Number of Schools and Teachers in Maharashtra, in higher secondary schools is less in comparison to last year as large number of such schools have been merged with high school.
11. (-) in the GER tables indicates, there is neither SC/ST population nor SC/ST enrolment.
12. Zero (0) in GER (SC) table for Arunachal Pradesh is due to negligible SC population and no enrolment indicated by the state.
13. In case of GER (ST) for Delhi, although there is no ST population, but there is marginal enrolment, therefore (-) is shown.

Methodology adopted for population projections in the age-groups 6-10 years, 11-13 years,14-15 years and 16-17 years.

Single age wise projected population is available for the years 2006,2011....for the ages 5-18 years from “POPULATION PROJECTIONS FOR INDIA AND STATES 2001-2026” published by Registrar General of India. These are available State-wise (including Assam) except for North –Eastern States and Goa. For North –Eastern states excluding Assam, combined projection totals are available single age-wise. Age-wise population projections are also not available for Union Territories (UTs) and Goa.

For All States (including Assam) except Goa, North –Eastern States other than Assam and UTs.

For each age-group, population totals have been worked out for the year 2006 for each state. The population as available from the Census 2011 for the state has been distributed in the age groups using the ratio of projected population for 2011 in that age groups.

For each age-group, population has been projected for the year 2009 State-wise, using Compound Annual Growth Rate.

For North –Eastern States other than Assam

For each age-group, population has been projected for the year 2009 for combined North Eastern States other than Assam, using Compound Annual Growth Rate using the same method as above. These have then been distributed amongst the North Eastern States using the ratios of 2001 population for each age group.

For Goa and UTs.

For each age-group, population for each UT has been worked out for the year 2009 using ratio of population in that age group to the total population in 2001. The same method has been used for Goa also.

SC/ST Population

For each age-group, the SC/ST population for a State has been obtained for the year 2009 using the ratio of SC/ST population in that age group to the total population of that State in 2001.
