

## Quality, Consistency & Coverage of U-DISE + 2018-19 Data

Number of schools, number of teachers and enrolment in 2017-18 and 2018-19 have been compared and analysed as a first step to assess quality, consistency and coverage of U-DISE +, 2018-19 data. State and district wise data has been obtained from report number 6- schools management wise, report number 31- enrolment by management and report number 37- teachers management wise, which has been accessed from <http://dashboard.udiseplus.gov.in/#!/reports>. Reports are not available by level of education hence analysis has been done for all levels (Primary to Higher Secondary level) together. There is a need to further examine in the districts where there is significant inconsistency in number of schools, number of teachers and enrolment. Districts which were bifurcated during 2017-18 and 2018-19 were not included in the analysis.

### Comparison of number of schools covered in 2017-18 and 2018-19
