APAAR
ONE NATION. ONE STUDENT ID

Common Misconceptions about APAAR:

APAAR is only for Elite Schools and Higher Educational Institutions (HEIs): APAAR as a system is envisioned by the Ministry of Education for all students in India studying in school education, higher education, and skill education as well. All school management types are included in the purview of APAAR, regardless of their ranking or status.

APAAR

ONE NATION. ONE STUDENT ID

Common Misconceptions about APAAR:

APAAR data is not securely stored: All APAAR ID related details, information is securely stored and transmitted only through authorized government databases. APAAR ensures full compliance with all the data protection, encryption, and data security guidelines prescribed in the Personal Data Protection Bill. UDISE+ and Digi Locker platforms have added layers of security that APAAR information is only shared with users having authorized access. Also, consent from parents/guardian is being recorded for data sharing.

APAAR

ONE NATION. ONE STUDENT ID

Common Misconceptions about APAAR:

APAAR ID Generation is a complex procedure: The Ministry of Education through multiple considerations and pilot studies have devised a process flow that only leverages the existing systems to generate APAAR ID for students. UDISE+ will be the end-to-end portal for responsible for generation of APAAR ID. As school students are minors and legally required parental consent to share their details to a third party, the multilingual consent form will be distributed, collected, and stored by the school authorities through the Parent Teacher Meetings (PTM) called in a staggered manner. Generation of APAAR ID and distribution of the details will be done after the PTMs in the subsequent working days by the class teacher. A confirmation SMS will also be sent to the registered mobile number for validation upon successful generation of APAAR ID.

Common Misconceptions about APAAR:

APAAR is a punitive system: APAAR is not a tool for punishment or track students and penalize for poor academic performance or non-compliance of educational norms. It is a transformative system aimed at enhancing educational experience for every student in India by providing an identity that can be leveraged for improving educational outcomes.

ONE NATION. ONE STUDENT ID

Common Misconceptions about APAAR:

APAAR is mandatory for availing any government schemes: APAAR is not mandatory for availing any government schemes. However, APAAR would enable the end users and all other stakeholders be aware of the schemes effectiveness and ensure data driven decisions are made to improve the efficiency of the initiatives. It will also ensure all documents required for the benefits are under one roof and improve the operational process.
