प्रस्तावना

व्यापक मॉड्यूलर सर्वेक्षण: शिक्षा (CMS:E) राष्ट्रीय सांख्यिकी कार्यालय (NSO), सांख्यिकी और कार्यक्रम कार्यान्वयन मंत्रालय (MoSPI) के द्वारा अप्रैल - जून, 2025 के दौरान राष्ट्रीय प्रतिदर्श सर्वेक्षण (NSS) के 80वें दौर के अंतर्गत आयोजित किया गया था। CMS:E रा.सां.का के द्वारा अल्प-अवधि, लक्षित सर्वेक्षणों को संस्थागत रूप देने की दिशा में उठाया गया एक महत्वपूर्ण कदम है। यह इस श्रृंखला के अंतर्गत किया गया दूसरा सर्वेक्षण था, जो टेलीकॉम पर किए गए प्रारंभिक सर्वेक्षण के पश्चात् आयोजित किया गया, और इस प्रकार समयोचित एवं नीतिगत रूप से प्रासंगिक आंकड़ों के सृजन हेतु मॉड्यूलर सर्वेक्षणों की निरंतरता को दर्शाता है। यह सर्वेक्षण स्कूल शिक्षा और साक्षरता विभाग (DoSEL) के अनुरोधों के अनुसार संपादित किया गया। इस सर्वेक्षण में मुख्य रूप से स्कूली शिक्षा में नामांकित छात्रों के परिवारों द्वारा किए गए व्यय से संबंधित जानकारी एकत्र की गई। इस सर्वेक्षण के परिणाम विभिन्न मंचों पर संबन्धित विभाग की रिपोर्टिंग आवश्यकताओं को समर्थन प्रदान करने और साक्ष्य-आधारित नीति निर्माण में सहायक होने की अपेक्षा की जाती है।

यह रिपोर्ट सर्वेक्षण के क्षेत्र कार्य के पूरा होने से दो महीने की अवधि के भीतर प्रकाशित की गई है। "व्यापक मॉड्यूलर सर्वेक्षण: शिक्षा, 2025" शीर्षक वाली रिपोर्ट में प्रस्तुत किए गए सभी आकलन अप्रैल - जून, 2025 की सर्वेक्षण अवधि के दौरान कंप्यूटर असिस्टेड पर्सनल इंटरव्यू (CAPI) पद्धति के माध्यम से एकत्र किए गए केंद्रीय प्रतिदर्श आंकड़ों पर आधारित हैं। उल्लेखनीय है कि इस सर्वेक्षण में किसी भी राज्य की भागीदारी नहीं थी, क्योंकि इसे मुख्यतः राष्ट्रीय स्तर की रिपोर्टिंग के लिए तैयार किया गया था। रिपोर्ट में एक परिचयात्मक अध्याय, सर्वेक्षण निष्कर्षों का विवरण देने वाला एक अध्याय और चार परिशिष्ट शामिल हैं। विस्तृत तालिकाएं जो कि इस रिपोर्ट का आधार हैं, परिशिष्ट 'A' में रखी गई हैं।

रा.सां.का. के हाउसहोल्ड सर्वे डिवीजन (HSD) ने सर्वेक्षण पद्धति का विकास किया, समंक का विधायन किया तथा इस रिपोर्ट को तैयार किया। फील्ड-वर्क क्षेत्रीय संकार्य प्रभाग (FOD) द्वारा किया गया था, जबकि समन्वय और गुणवत्ता नियंत्रण प्रभाग (C&QCD) ने इस सर्वेक्षण से संबंधित विभिन्न गतिविधियों का समन्वय किया।

मैं हाउसहोल्ड सर्वेक्षणों के तकनीकी सलाहकार समूह (TAG), एन एस एस सर्वेक्षणों के संचालन समिति और राष्ट्रीय सांख्यिकी आयोग (NSC) के सदस्यों को सर्वेक्षण के विभिन्न चरणों में उनके बहुमूल्य मार्गदर्शन के लिए बहुत आभारी हूँ। मैं रा.सां.का. के विभिन्न प्रभागों के अधिकारियों द्वारा किए गए प्रयासों की सराहना भी करना चाहूँगी। मुझे उम्मीद है कि यह रिपोर्ट योजनाकारों, नीति निर्माताओं, शिक्षाविदों और शोधकर्ताओं के लिए उपयोगी होगी।

गीता.

महानिदेशक (रा.प्र.स.)

Preface

The Comprehensive Modular Survey: Education (CMS: E) was conducted by the National Statistics Office (NSO), Ministry of Statistics and Programme Implementation (MoSPI), during April – June, 2025, as part of the 80th round of the National Sample Survey (NSS). The CMS: E marks a significant step by the NSO towards institutionalizing short-duration, focused surveys. The CMS: E was the second survey conducted under this series, following the initial survey on telecom, thereby continuing the effort to produce timely and policy-relevant statistics through modular survey rounds. This survey was undertaken pursuant to requests from the Department of School Education and Literacy (DoSEL). It primarily collected expenditure-related information incurred by the student households enrolled in school education. The results of this survey are expected to support the reporting obligations of the line department across various forums and assist in evidence-based policy formulation.

This report is brought out within two months of completing the survey fieldwork. All estimates presented in the report titled *“Comprehensive Modular Survey: Education, 2025”* are based on central sample data collected through the Computer Assisted Personal Interview (CAPI) method during the survey period of April – June, 2025. Notably, the survey did not involve any state participation, since it was primarily designed for national-level reporting. The report consists of an introductory chapter, a chapter detailing the survey findings, and four appendices. The detailed tables forming the basis of this report are provided in Appendix ‘A’.

The Household Survey Division (HSD) of NSO undertook the development of survey methodology, processed the data and prepared this report. The fieldwork was carried out by the Field Operations Division (FOD), while the Coordination and Quality Control Division (C&QCD) coordinated various activities pertaining to this survey.

I am highly thankful to the members of the Technical Advisory Group (TAG) for Household Surveys, Steering Committee for NSS surveys and National Statistical Commission (NSC) for their valuable guidance at various stages of the survey. I would also like to place on record my appreciation for the efforts made by the officers of different Divisions of NSO. I hope this report will be found useful by planners, policymakers, academicians and researchers.

मुख्य बातें

यह रिपोर्ट अप्रैल-जून, 2025 के दौरान आयोजित रा.सां.स के 80वें दौर के व्यापक मॉड्यूलर सर्वेक्षण: शिक्षा (CMS: E), 2025 पर आधारित है। यह सर्वेक्षण कुल 4,366 प्रथम चरण इकाइयों अर्थात् ग्रामीण क्षेत्रों में गांव और शहरी क्षेत्रों में शहरी ब्लॉक (ग्रामीण क्षेत्रों में 2,384 और शहरी क्षेत्रों में 1,982) में संचालित किया गया है। इन प्रथम चरण इकाइयों में कुल 52,085 परिवार (ग्रामीण क्षेत्रों में 28,401 और शहरी क्षेत्रों में 23,684) और 2,21,617 व्यक्ति (ग्रामीण क्षेत्रों में 1,26,079 और शहरी क्षेत्रों में 95,538) शामिल थे।

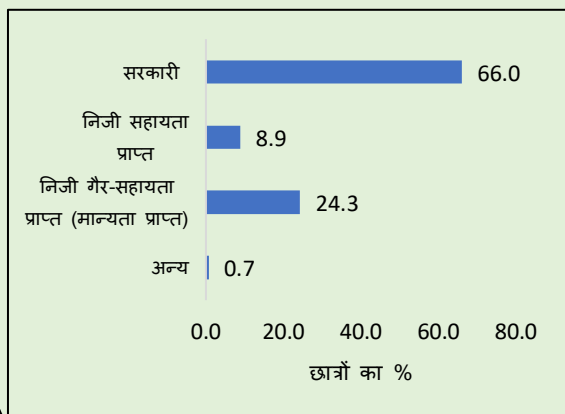

मुख्य निष्कर्ष

1

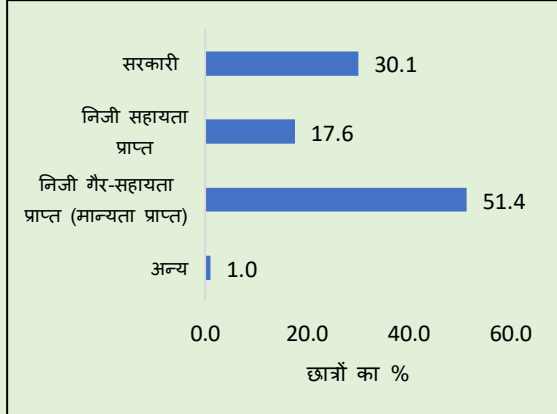

छात्रों का वितरण

ग्रामीण भारत में विद्यालयी शिक्षा में नामांकित छात्रों में से लगभग 66.0% सरकारी स्कूलों में नामांकित हैं और 33.9% सरकारी स्कूलों के अतिरिक्त अन्य स्कूलों में नामांकित हैं। शहरी भारत में, लगभग 30.1% छात्र सरकारी स्कूलों में नामांकित हैं, जबकि 70.0% छात्र सरकारी स्कूलों के अतिरिक्त अन्य स्कूलों में नामांकित हैं।

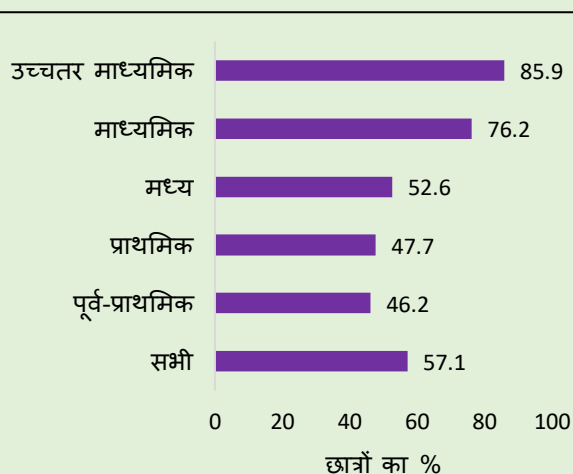

ग्रामीण क्षेत्रों में स्कूल के प्रकार के अनुसार वर्तमान में विद्यालयी शिक्षा में नामांकित छात्रों का वितरण

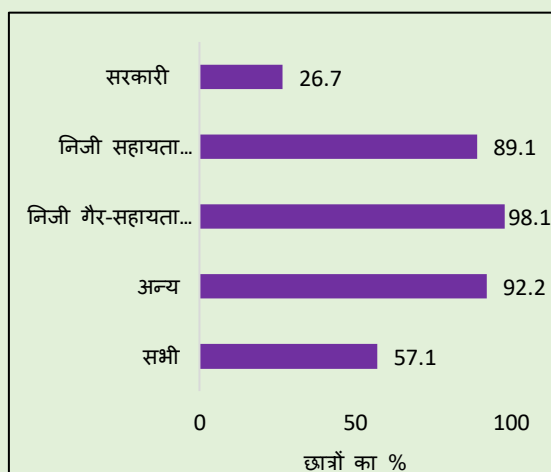

शहरी क्षेत्रों में स्कूल के प्रकार के अनुसार वर्तमान में विद्यालयी शिक्षा में नामांकित छात्रों का वितरण

वर्तमान नामांकन के स्तर के अनुसार पाठ्यक्रम शुल्क पर व्यय की सूचना देने वाले छात्रों का प्रतिशत

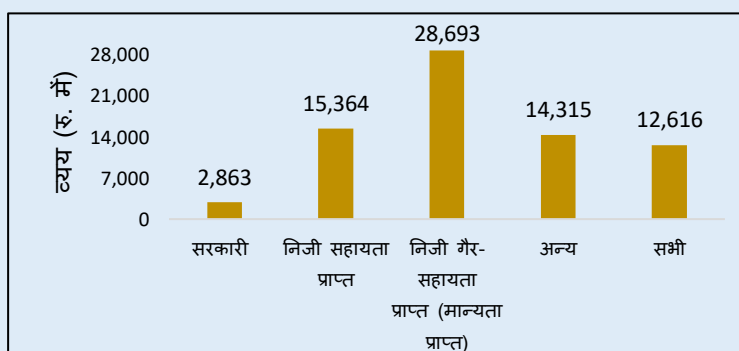

स्कूल के प्रकार के अनुसार पाठ्यक्रम शुल्क पर व्यय की सूचना देने वाले छात्रों का प्रतिशत

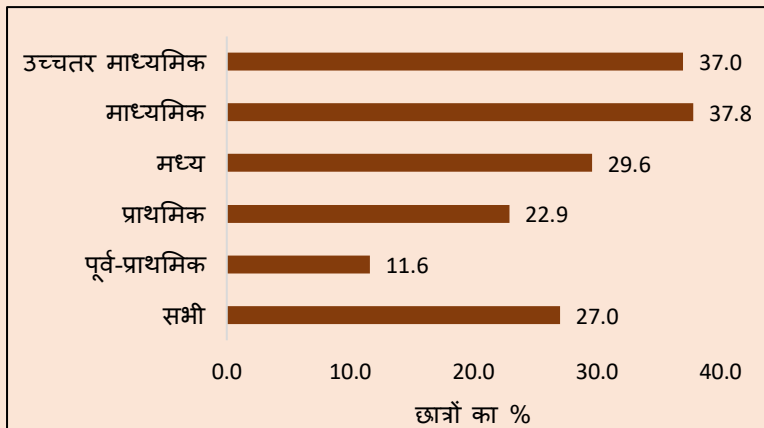

ग्रामीण भारत में, मौजूदा शैक्षणिक वर्ष के दौरान विद्यालयी शिक्षा पर प्रति छात्र औसत व्यय सरकारी स्कूलों में ₹2,639 और गैर-सरकारी स्कूलों में ₹19,554 है। शहरी भारत में यही व्यय सरकारी स्कूलों में ₹4,128 तथा गैर-सरकारी स्कूलों में ₹31,782 अनुमानित है।

ग्रामीण भारत में विद्यालयी शिक्षा पर प्रति छात्र औसत व्यय ₹8,382 है, जबकि शहरी भारत में यह व्यय ₹23,470 है, जो नामांकन के सभी स्तरों और सभी प्रकार के विद्यालयों के लिए है।

स्कूल प्रकार के अनुसार स्कूली शिक्षा पर प्रति छात्र औसत व्यय (₹)

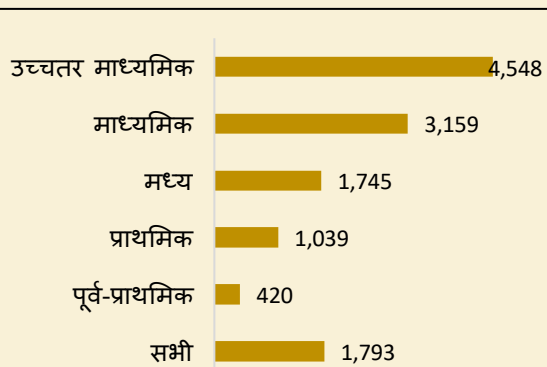

वर्तमान नामांकन के स्तर के अनुसार मौजूदा शैक्षणिक वर्ष के दौरान निजी कोचिंग लेने वाले/ले चुके छात्रों का प्रतिशत

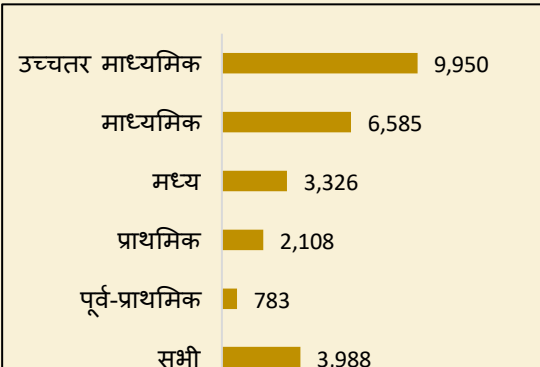

ग्रामीण भारत में, विद्यालयी शिक्षा में नामांकित लगभग 25.5% छात्र मौजूदा शैक्षणिक वर्ष के दौरान निजी कोचिंग ले रहे थे/ले चुके थे। शहरी भारत में, यह अनुमान 30.7% है।

मौजूदा शैक्षणिक वर्ष के दौरान, निजी कोचिंग पर प्रति छात्र अनुमानित औसत व्यय ₹2,409 है। प्रति पुरुष छात्र और प्रति महिला छात्र अनुमानित औसत व्यय क्रमशः ₹2,572 और ₹2,227 है।

ग्रामीण भारत में नामांकन के स्तर के अनुसार निजी कोचिंग पर प्रति छात्र औसत व्यय (₹)

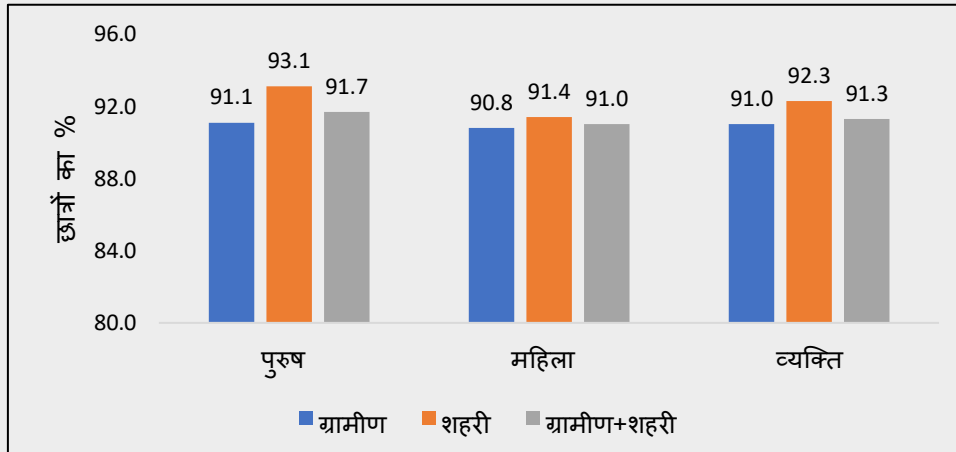

शहरी भारत में नामांकन के स्तर के अनुसार निजी कोचिंग पर प्रति छात्र औसत व्यय (₹)

4

वित्तपोषण के स्रोत

शैक्षणिक व्यय हेतु एकल स्रोत से वित्त पोषण की सूचना देने वाले छात्रों का प्रतिशत

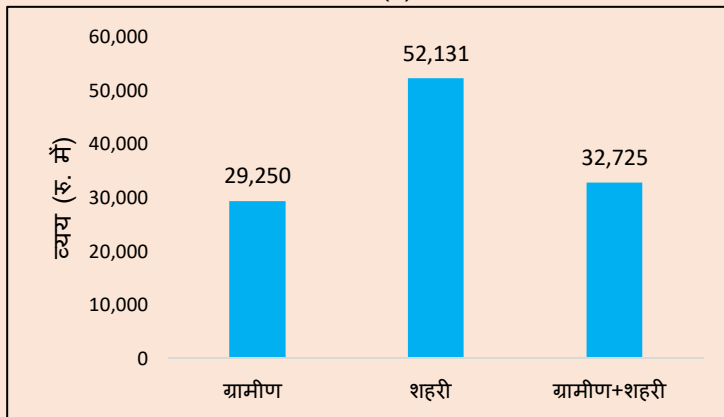

भारत में, लगभग 95.0% छात्रों ने सूचित किया कि 'परिवार के अन्य सदस्यों द्वारा वित्तपोषण स्त्रोत' उनकी शिक्षण व्यय के लिए वित्त पोषण का प्रथम प्रमुख स्रोत है।

5

वर्तमान में विद्यालयी शिक्षा प्राप्त कर रहे पूर्व पारिवारिक सदस्यों की सूचना

दर्ज किए गए पूर्व पारिवारिक सदस्य के विद्यालयी शिक्षा पर औसत व्यय (₹)

लगभग 1.3% भारतीय परिवारों ने सूचना दी कि उनका कोई पूर्व पारिवारिक सदस्य (3 वर्ष या उससे अधिक आयु का) वर्तमान में विद्यालयी शिक्षा में भाग ले रहे हैं, जो ग्रामीण क्षेत्रों में 1.7% और शहरी क्षेत्रों में 0.6% है।

Highlights

The report is based on the Comprehensive Modular Survey: Education (CMS: E), 2025 of the NSS 80th round conducted during April - June, 2025. The survey was spread over 4,366 first-stage units, i.e., villages in rural areas and urban blocks in urban areas (2,384 in rural areas and 1,982 in urban areas), covering 52,085 households (28,401 in rural areas and 23,684 in urban areas) and 2,21,617 persons (1,26,079 in rural areas and 95,538 in urban areas).

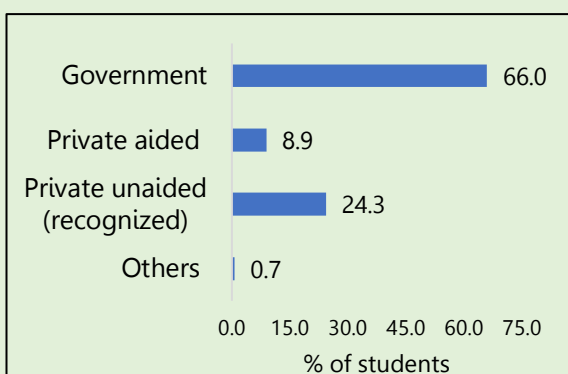

Key Findings

1

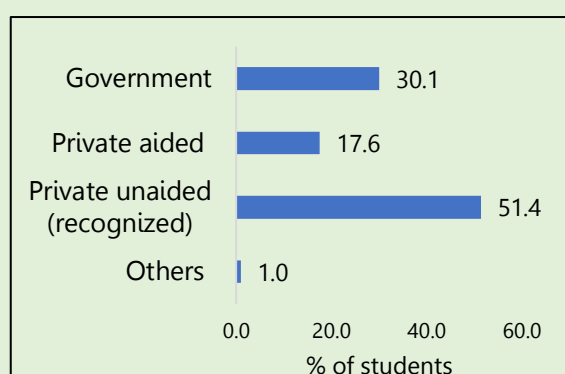

Distribution of Students

Among the students enrolled in school education, about 66.0% were enrolled in government schools, and 33.9% were enrolled in other than government schools in rural India. In urban India, about 30.1% of students were enrolled in government schools, while 70.0% were enrolled in schools other than government schools.

Distribution of students currently enrolled in school education by type of school in rural areas

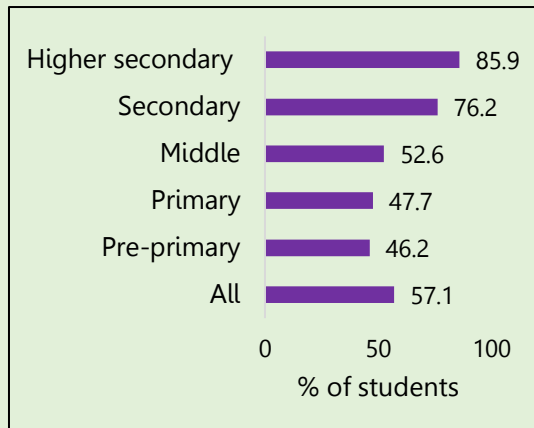

Distribution of students currently enrolled in school education by type of school in urban areas

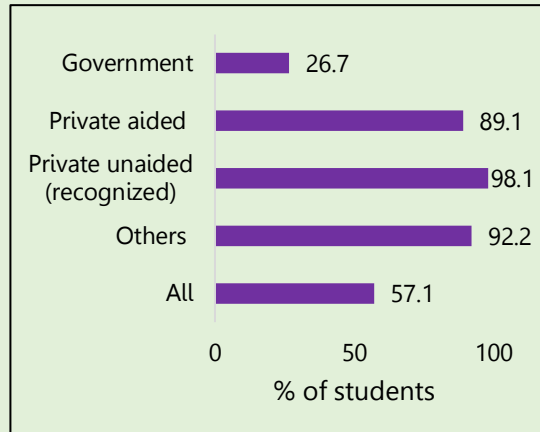

2

Expenditure on School Education

Percentage of students reported expenditure on course fees by level of current enrolment

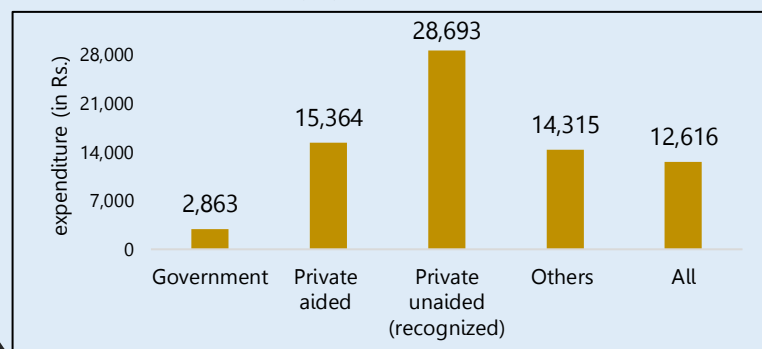

Percentage of students reported expenditure on course fees by type of school

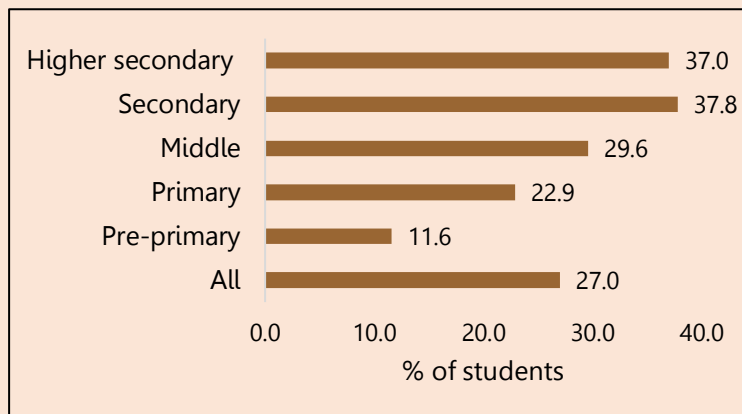

In rural India, the average expenditure per student on school education during the current academic year was estimated at ₹2,639 in government schools and ₹19,554 in non-government schools. In urban India, the same was estimated at ₹4,128 for government schools and ₹31,782 for non-government schools.

The average expenditure per student on school education in rural India was estimated at ₹8,382 and ₹23,470 in urban India, for all levels of enrolment and all types of schools.

Average expenditure (₹) per student on school education by type of school

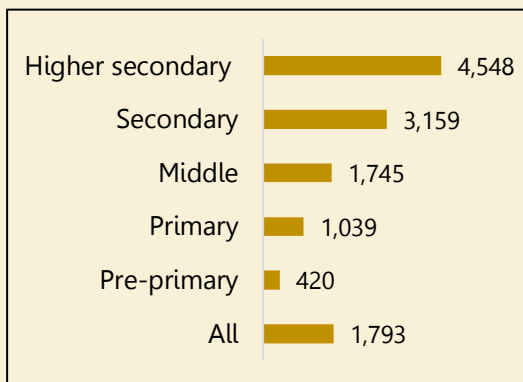

Percentage of students who were taking/had taken private coaching during the current academic year by levels of current enrolment

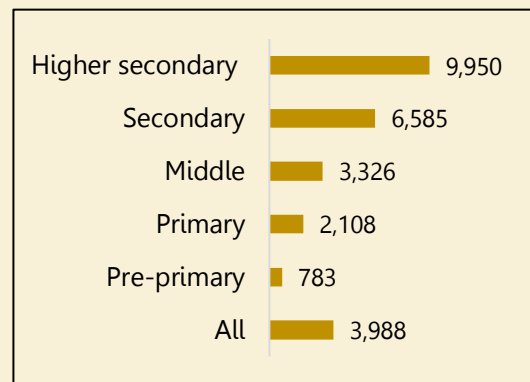

In rural India, about 25.5% students enrolled in school education reported were taking/had taken private coaching during the current academic year. In urban India, the estimate stands at 30.7%.

Average expenditure per student on private coaching, during the current academic year, was estimated at ₹2,409. The average expenditure per male and female student was estimated at ₹2,572 and ₹2,227, respectively.

Average expenditure (₹) per student on private coaching by level of enrolment in rural India

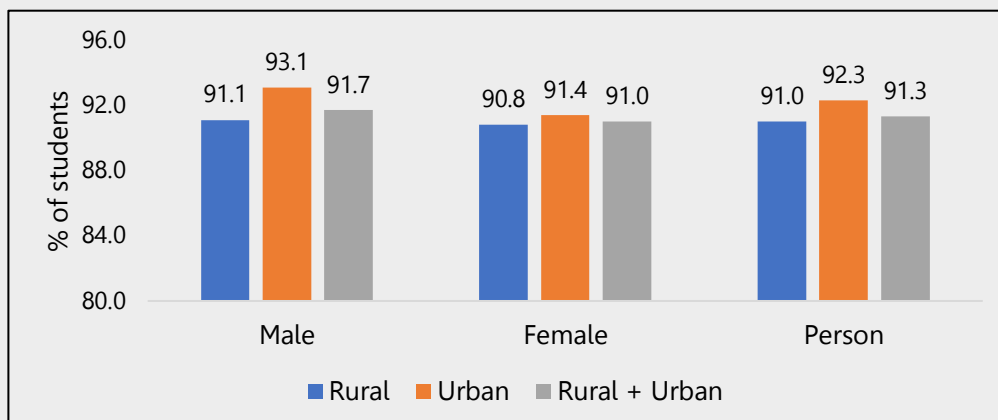

Average expenditure (₹) per student on private coaching by level of enrolment in urban India

4

Sources of Funding

Percentage of students reported a single source of funding for their educational expenses

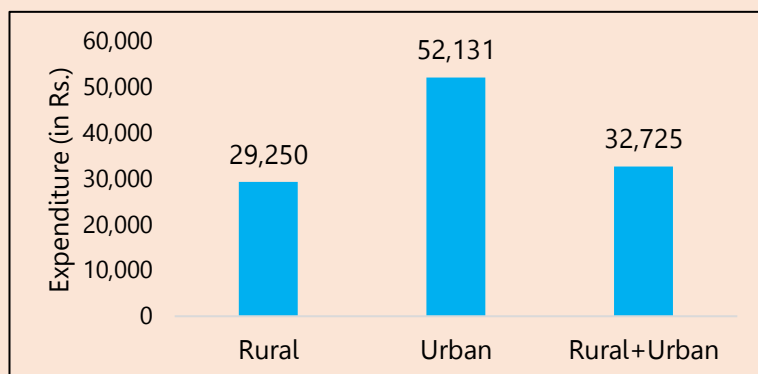

In India, about 95.0% of students reported that 'funded by other members of the household' was the first major source of funding for their educational expenses.

5

Erstwhile Members Currently Attending School Education

Average expenditure (₹) on school education on erstwhile member by per reported household

About 1.3% of Indian households reported an erstwhile member (age 3 years and above) currently attending school education, with rural at 1.7% and urban at 0.6%.

D1-D7

The National Statistics Office (NSO), Ministry of Statistics and Programme Implementation (MoSPI), conducted the Comprehensive Modular Survey: Education (CMS: E) during the period April to June, 2025. This survey was undertaken as part of the 80th round of the National Sample Survey (NSS).

The last survey on Household Social Consumption: Education was conducted during NSS 75th round (July 2017 to June 2018). In NSS 75th round survey, information on education was collected for all levels of education, i.e., pre-primary and above. Apart from household expenditure on education, the NSS 75th round survey also covered qualitative aspects related to the educational attainment of the household members and educational services used by them.

However, designed as a short-duration survey, the current survey, CMS: E of NSS 80th round focuses only on school education, i.e., students currently enrolled in pre-primary up to higher secondary level. The survey primarily collected information on household expenditure on school education, including expenditure on private coaching/ tuition classes. Although the survey mainly aims to generate national-level estimates to support the requirements of the Department of School Education and Literacy (DoSEL); wherever possible, disaggregated estimates at the sub-national level have also been presented in the report.

1.1 Objective

The primary objective of the CMS: E is to generate estimates of household expenditures on school education. In addition to disaggregation by gender and sector, the data enable reporting of expenditure grouped by current level of enrolment and type of school attended. The survey also aims to generate estimates of household expenditure on private coaching or tuition for students who are currently enrolled in school education. Additionally, the source of funding (at most two sources) for the

expenditure incurred/ to be incurred for the school education was collected. The survey also facilitates generating estimates of household expenditure on school education, private coaching, lodging & boarding for erstwhile members who are currently enrolled in school education.

1.2 Comparability Issues

Considering the data requirement of the user department (DoSEL), a few concepts and definitions in CMS: E were revised compared to those used in the NSS 75th round survey. Details of these modifications are provided below.

- (a) *Coverage of education:* In CMS: E, students currently enrolled in school education, including diploma/ certificate courses upto secondary or higher secondary level, were considered for detailed canvassing. However, in the NSS 75th round, all levels of education enrolments were considered.
- (b) *Pre-primary level:* In CMS: E, the pre-primary level of education also includes students enrolled in anganwadis. Whereas, in the NSS 75th round, the estimates for pre-primary level did not include students enrolled in anganwadis, rather they were considered enrolled in 'other non-formal' education.
- (c) *Age group:* In the NSS 75th round, persons of age 3 to 35 years who are currently attending education were considered. In CMS: E, persons of age 3 and above who are currently enrolled in school education were considered for data collection.
- (d) *Item-wise data collection:* In the NSS 75th round, lump-sum expenditure on private coaching and expenditure on erstwhile members were collected. In CMS: E, an attempt was made to collect item-wise expenditure on private coaching such as course fee, transportation, stationery, uniform, etc, for current household members. For erstwhile members, apart from lump-sum expenditure; expenditure on school education, private tuition, and lodging & boarding charges was collected.

1.3 Survey Coverage

The survey was designed to cover the whole of the Indian Union except a few inaccessible villages in the Andaman and Nicobar Islands. The CMS: E was conducted in 2,384 villages and 1,982 urban blocks covering 52,085 households (28,401 in rural areas and 23,684 in urban areas) and 2,21,617 persons (1,26,079 in rural areas and 95,538 in urban areas). Education-related detailed information was collected for 57,742 students currently enrolled in school education. The distribution of the villages/urban blocks and households surveyed across different States/UTs for rural and urban areas is given in Appendix A.

1.4 Schedule of enquiry

The data for the survey was collected using CMS: E schedule, specifically designed for this purpose. The fieldwork for the central sample was carried out by the Field Operations Division (FOD) of the NSO. It is important to note that there was no State participation in this survey.

1.5 Sample design

A stratified multi-stage design was adopted for CMS: E. The first stage units (FSU) were villages/ sub-units (SUs) in the rural sector and UFS blocks/SUs in the urban sector. The ultimate stage units (USU) were households in both rural and urban sectors. From each selected FSU, a total of 12 households were randomly selected following Simple Random Sampling Without Replacement (SRSWOR). While household-level information was collected from all selected households, the person-level information from selected households was collected for individuals belonging to age groups 3 years and above and currently enrolled in school education only. To effectively capture representative households, four Second Stage Strata (SSS) were formed based on Monthly Per Capita Consumer Expenditure (MPCE) and the status of current enrolment of any household member aged 3 years and above in school education. Details on the SSS formation criteria and SSS-wise allocation of samples are provided in Appendix C.

1.6 Content of the report

This report is structured into two chapters and four appendices. Chapter One (current chapter) serves as the introductory chapter, while Chapter Two presents the Summary of Findings. The report gives estimates of key indicators, both at the national and the State/UT level. The detailed State/ UT-level tables, along with the Relative Standard Error (RSE) for selected key indicators, are given in Appendix A. It may also be noted that due to the rounding-off effect, some of the row and column totals may not add up exactly. Separate estimates for transgender persons have not been generated; however, they have been included under the category of 'persons' at the tabulation stage. Appendix B outlines key concepts and definitions used in the survey. The details of the survey methodology and estimation procedure are given in Appendix C. Appendix D contains a *facsimile* of schedule CMS: E.

1.7 Note for readers

The survey was not designed for the generation of sub-national level estimates. The interpretation of survey results should be made considering the RSE associated with the estimates. Further, it is important to consider the limited sample size of specific indicators and/ or domains, such as small states or union territories. While using the State/UT-level estimates, it may be noted that the sample sizes for the smaller States/ UTs may not be adequate for getting sufficiently reliable estimates for some indicators. The survey-based estimated totals are used to compute rates and ratios only. It may not be prudent to use survey-based estimated totals to interpret any results in absolute terms. The data users are requested to make due diligence while interpreting the survey results.

This chapter presents the key findings from the CMS: Education survey. It outlines the patterns in expenditure by level of enrolment, as well as by type of school attended during the current academic year. The chapter further provides expenditure on private coaching/tuition, and expenditure by households on school education for erstwhile members. Wherever applicable, disaggregated estimates by gender and sector are also provided. Summary statements offered a snapshot of major indicators at the all-India level. For the purpose of this survey, a 'student' refers to any person aged 3 years and above who is currently enrolled in school education. Further, in the survey, information on household expenditure on school education and private coaching was collected for the 'current academic year', in which the student was enrolled as on the date of the survey. Expenditures that were incurred and to be incurred by the household during the entire period of the 'current academic year' were considered for recording.

While reporting average expenditure, two approaches were followed:

- (i) Average expenditure per reported student: It has been observed that in some cases, expenditure towards school course fees is zero, implying no course fee has been charged by the school. Further, in the case of private tuition, a zero expenditure indicates either that the student did not take any private tuition or that the tuition was received free of cost. The average expenditure per reported student is calculated by dividing the total expenditure by the number of students with positive (non-zero) expenditure.
- (ii) Average expenditure per student: In this approach, the total expenditure is divided by the entire student population, regardless of whether the expenditure is positive or zero.

2.1 Distribution of student population

The survey collected information on the current household members, including single-member households, of age 3 years and above who are currently enrolled in the school education. In addition to their expenditure on education, information was also collected on the current level of enrolment and the type of school currently attended. It may be noted that the survey was not designed to provide estimates of total students. However, the estimates of student population obtained on the basis of the CMS: Education survey can be used to estimate the rates and ratios. It may be further noted that the rates and ratios presented in this report are generated using the survey-based estimates.

At the all-India level, the student population is almost evenly distributed by gender, with males comprising 52.7% and females making up 47.2%. Overall, the distribution of the student population in rural and urban areas is 71.9% and 28.1% respectively.

2.1.1 Distribution of students by level of current enrolment and type of school

In this survey, enrolment particulars were collected at the class level. For analysis and reporting, these class-wise enrolments have been aggregated into the following categories: pre-primary (below Class I), primary (Class I - V), middle (Class VI - VIII), secondary (Class IX - X, including diploma /certificate courses up to secondary level) and higher secondary (Class XI - XII, including diploma /certificate courses equivalent to higher secondary level).

Statement 1.1 gives the distribution of students currently enrolled in school education by level of current enrolment for each gender and sector. The corresponding State/UT level estimates are given in Table 1 in Appendix A.

Statement 1.1: Distribution of students enrolled in school education by level of current enrolment

Level of current enrolment	all-India		
	male	female	person
rural			
Pre-primary	10.1	10.4	10.3
Primary	43.0	43.1	43.0
Middle	22.1	22.0	22.0
Secondary	14.8	14.3	14.6
Higher secondary	10.1	10.1	10.1
All	100.0	100.0	100.0
urban			
Pre-primary	10.7	11.0	10.8
Primary	38.5	37.3	37.9
Middle	21.3	22.9	22.0
Secondary	16.0	15.9	15.9
Higher secondary	13.6	13.0	13.3
All	100.0	100.0	100.0
rural + urban			
Pre-primary	10.3	10.6	10.4
Primary	41.7	41.5	41.6
Middle	21.8	22.3	22.0
Secondary	15.1	14.8	14.9
Higher secondary	11.0	10.9	11.0
All	100.0	100.0	100.0

In this survey, information on the type of schools was collected under five categories: government, private aided, private unaided (recognized), private unaided (unrecognized), and others. However, due to the limited sample size, the categories 'private unaided (unrecognized)' and 'others' have been combined and reported together as 'others' for analysis.

Table 1.2 gives the distribution of students currently enrolled in school education by type of school for each gender and sector. The corresponding State/UT level estimates are presented in Table 2 in Appendix A.

Statement 1.2: Distribution of students currently enrolled in school education by type of school

		all-India		
Type of school		male	female	person
rural				
Government		64.0	68.3	66.0
Private aided		9.1	8.6	8.9
Private unaided (recognized)		26.1	22.3	24.3
Others		0.7	0.8	0.7
All		100.0	100.0	100.0
urban				
Government		27.7	32.7	30.1
Private aided		17.2	18.0	17.6
Private unaided (recognized)		54.2	48.3	51.4
Others		0.9	1.0	1.0
All		100.0	100.0	100.0
rural + urban				
Government		53.8	58.4	55.9
Private aided		11.4	11.2	11.3
Private unaided (recognized)		34.0	29.5	31.9
Others		0.8	0.9	0.8
All		100.0	100.0	100.0

Table 1.3(R) gives the distribution of students currently enrolled in school education by type of school, for each level of current enrolment, for each gender in the rural sector. The corresponding State/UT level estimates are given in Table 3(R) in Appendix A.

Statement 1.3(R): Distribution of students currently enrolled in school education by type of school for each level of enrolment in rural areas

		all-India		
Level of current enrolment	Type of school	male	female	person
Pre-primary	Government	64.8	66.4	65.6
	Private aided	4.6	3.9	4.3
	Private unaided (recognized)	28.6	27.6	28.1
	Others	1.9	2.0	1.9
	All	100.0	100.0	100.0
Primary	Government	63.9	69.4	66.5
	Private aided	7.3	6.2	6.8
	Private unaided (recognized)	27.9	23.6	25.9
	Others	0.9	0.9	0.9
	All	100.0	100.0	100.0
Middle	Government	67.9	71.0	69.3
	Private aided	8.8	9.8	9.3

Statement 1.3(R): Distribution of students currently enrolled in school education by type of school for each level of enrolment in rural areas
all-India

Level of current enrolment	Type of school	male	female	person
	Private unaided (recognized)	23.0	18.7	21.0
	Others	0.3	0.6	0.4
	All	100.0	100.0	100.0
Secondary	Government	64.2	66.0	65.0
	Private aided	13.2	14.1	13.6
	Private unaided (recognized)	22.5	19.5	21.1

2.2 Expenditure on school education

In this survey, information on expenditure during the current academic year was collected for 'expenditure incurred' and also 'expenditure to be incurred' by the household. Expenditures associated with school education were collected under the following components of expenditure: course fees (including admission fees, tuition fees, examination fees, development fees, and other compulsory payments), transport, uniform, textbooks and stationery, and other expenditure related to school education. The report presents average expenditure per student as well as average expenditure per reported student, separately for total expenditure and each component of expenditure.

2.2.1 Percentage of students reported expenditure on course fees

The percentage of students reporting expenditure on course fees during the current academic year, by current level of enrolment for each gender and sector, is presented in Statement 2.1. The corresponding State/UT level estimates are given in Table 4.1 in Appendix A.

Statement 2.1: Percentage of students reported expenditure on course fees by level of current enrolment

Level of current enrolment	all-India		
	male	female	person

2.3 Private coaching

In this survey, information on private coaching was collected separately and not as a component of expenditure on school education. Like expenditure on school education, information on private coaching was also collected for the students who are currently enrolled in school education. A similar approach, expenditure incurred / to be incurred, during the current academic year, was also followed while collecting expenditure-related information on private coaching. Although expenditure on private coaching has been collected under different components, however, for reporting purposes, only the total expenditure has been considered.

Information was collected on whether a student was taking/ had taken private coaching during the current academic year. The percentage of students who were taking/had taken private coaching during the current academic year for different levels

of current enrolment is given in Statement 3.1. The corresponding State/UT level estimates are provided in Table 11 in Appendix A.

Statement 3.1: Percentage of students who were taking/had taken private coaching during the current academic year for different levels of current enrolment

Higher secondary	18,425	16,014	17,323
All	9,285	8,601	8,973

2.4 Source of funding

In this survey, information was also collected on the source of funding of the total education expenditure during the current academic year. The survey collected two major sources of funding (first major source and second major source (if any)). Statement 4.1 gives the percentage of students who reported only one major source of funding for their education expenditure. The corresponding State/ UT level estimates are presented in Table 13 of Appendix A.

Statement 4.1: Percentage of students reported a single source of funding for their educational expenses

all-India			
	Male	Female	Person
Rural	91.1	90.8	91.0
Urban	93.1	91.4	92.3
Rural + Urban	91.7	91.0	91.3

Information on funding educational expenditures was collected for 10 different sources: (i) funded from the earning of the student, (ii) funded by other members of the household, (iii) funded by erstwhile household members, (iv) received as gifts from friends/relatives, (v) scholarships from school, (vi) scholarships from government, (vii) scholarships from charitable and other organisations, (viii) educational loan, (ix) other loan, and (x) others. Statement 4.2 provides the distribution of the first major source of funding for education expenditure during the current academic year. The sources of funding that are not featured in the table below are grouped under 'others'. The corresponding State/ UT level estimates are presented in Table 13 of Appendix A.

Statement 4.2: Distribution of the first major source of funding for education expenditure

	all-India		
Source of funding (first major source)	male	female	person
rural			
Funded by other members of the household	95.2	95.3	95.3
Funded by erstwhile household member	2.5	2.4	2.5
Scholarships from Government	1.4	1.4	1.4
Others	0.9	0.9	0.8
All	100.0	100.0	100.0
urban			
Funded by other members of the household	94.5	94.4	94.4
Funded by erstwhile household member	2.8	1.5	2.2
Scholarships from Government	0.4	1.3	0.9
Others	2.3	2.8	2.5
All	100.0	100.0	100.0
rural + urban			
Funded by other members of the household	95.0	95.1	95.0
Funded by erstwhile household member	2.6	2.1	2.4
Scholarships from Government	1.1	1.3	1.2
Others	1.3	1.5	1.4
All	100.0	100.0	100.0

2.5 Households reporting erstwhile members currently attending school education

From the households surveyed, it was ascertained whether any erstwhile member, of age 3 years and above, of the household was currently attending school education. Erstwhile members of a household are those who were members of the selected household sometime in the past. Information was collected on various aspects of current attendance and total expenditure (on education as well as any other expenditure) incurred/to be incurred by the household for those erstwhile members during the current academic year. Apart from the total expenditure, an attempt was also made to obtain the bifurcation of the total expenditure under three major heads (i) expenditure on school education, (ii) expenditure on private coaching, and (iii) expenditure on lodging and boarding. However, detailed component-wise estimates could not be generated due to the non-availability of information on disaggregated expenditures from many selected households.

Further, imputation of the missing values for erstwhile members could not be done due to insufficient sample observation on single-member households having expenditure on lodging and boarding at an appropriate level of disaggregation.

In Statement 5.1, the percentage of households reporting erstwhile members of age 3 years and above currently attending school education, and the average expenditure incurred per household on such erstwhile members during the current academic year are presented. The corresponding State/ UT level estimates are given in Table 14 of Appendix A.

Statement 5.1: Percentage of households reporting erstwhile members of age 3 years and above currently attending school education and average expenditure (₹) incurred per household on such erstwhile members

all-India

Indicator	Rural	Urban	Rural+Urban
Percentage of households reported erstwhile member currently enrolled in school education	1.7	0.6	1.3
Average expenditure (₹) on erstwhile member per reported household	29,250	52,131	32,725

In Statement 5.2, the percentage distribution of households reporting erstwhile members of age 3 years and above currently attending school education is presented by number of such erstwhile members. The corresponding State/ UT level estimates are given in Table 14 of Appendix A.

Statement 5.2: Percentage distribution of households reporting erstwhile members currently attending school education by number of such erstwhile members

all-India

Number of erstwhile members currently attending school education	Rural	Urban	Rural+Urban
1	80.1	88.9	81.6
2	15.1	6.8	13.7
3 or more	4.8	4.3	4.7
All	100.0	100.0	100.0

In respect of the selected households, the information in this survey was collected through personal interviews with the respondent(s). The concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

School education: For this survey, school education includes enrolment of students aged 3 years and above, at pre-primary, primary, middle, secondary, and higher secondary levels of education.

Education at the pre-primary level refers to early childhood education for young children before commencing primary education. Primary level refers to Classes I-V, middle refers to Classes VI-VIII, secondary refers to Classes IX-X, and higher secondary education refers to Classes XI-XII. It is worth noting that some of these are also taught in colleges/open schools. Additionally, diploma/certificate courses up to the level of higher secondary and equivalent are also considered as part of school education for the purpose of this survey.

Currently enrolled: Persons who were temporarily not attending school education due to reasons like illness, vacation, etc., were treated as currently enrolled. Persons who were awaiting results were considered as 'currently enrolled' and the appropriate level for which they appeared in the examinations was considered as the level of current enrolment. Persons who were registered for any regular distance learning for a stipulated period, at the end of which, were allowed to appear in the examination, were also considered as 'currently enrolled'.

Student: For the purpose of this survey, a household member is considered a student if he/she is of age 3 years and above and is currently enrolled in school education from pre-primary to class XII and/ or Diploma/ certificate courses up to the level of Secondary Education or Diploma/certificate course equivalent to Higher Secondary level.

Private tuition/ coaching classes: Information was collected on whether a student was taking/taken private coaching in the current academic year. Private coaching

might be taken by a student individually or in a group, at home or in any other place, by a single or more tutors. For the purpose of this survey, private tuition included academic support for preparation for school education, preparation for competitive exams and preparation for higher or additional studies related to the school curriculum, etc.

However, coaching for skill development (e.g. coding, foreign language classes), extracurricular activities (e.g. art, dance, music classes, etc.), coaching for games (e.g. cricket, football, yoga, etc.) etc. were not considered.

Erstwhile member: For this survey, students who were members of the selected household anytime in the past and are likely to return to the selected household during vacations/ holidays and/ or on completion of the course were considered as erstwhile student members of the household. Paying guests were not treated as erstwhile members of a selected household if they had moved from the selected household as on the date of the survey. A familial relationship between erstwhile members and the selected household was considered a defining household characteristic. However, erstwhile members studying abroad were out of the coverage of this survey.

Academic year: The Academic Year for school education is likely to be one year only. However, for Diploma courses with a semester system, etc. may have a course duration different than one year. The treatment of academic year for this survey, in relation to the duration of the course, was done in the following manner:

- a. If the duration of the course is less than one year, the academic year covers full duration of the course.
- b. If the duration of the course is equal to or more than one year, then, academic year covers a period of 12 months.
- c. For the school with semester system (e.g. three to six months semester system), the academic year is taken as 12 months if the duration of the course is equal to or more than one year.

Type of schools: This referred to the type of management by which the institution was run. It might be run by the Government (Central/State/Local) or a private body,

irrespective of whether it receives government aid. Thus, the types of Institutions were: (a) Government, (b) Private aided and (c) Private unaided.

Government school: All schools run and fully funded by central and state governments, public sector undertakings, autonomous organisations, municipal corporations, municipal committees, notified area committees, zilla parishads, panchayat samitis, cantonment boards, etc., are treated as government schools. It may be noted that a government school may be run either by the government directly or through a governing body/managing committee, etc., set up by the government.

Government Aided School (Private schools aided by the Government): A Government-aided school is one that is run by an individual or a private entity and receives maintenance grant/dearness allowance, etc., for teachers and staff from the Government. The school is recognised by the State or Central Government as per the State/RTE specified recognition rules.

Private unaided (recognized) school: A private unaided school is one which is managed by an individual or a private entity and is not receiving a maintenance grant, or any other benefits from the Government, i.e., all expenses are financed from their own sources, etc. The school is recognized by the State or Central government as per the State/RTE specified recognition rules.

Unrecognised school: As per Right to Education (RTE) Act, schools should meet certain minimum requirements like having a minimum number of teachers, building, classrooms, furniture, toilet facilities, drinking water, library etc., subject to meeting minimum set norms to get recognition from the government. Thus, schools that do not have a recognition certificate from the appropriate authority, viz., Government, District, Panchayat, Local Bodies etc. are considered as an unrecognised school. This does not include coaching centres.

Others: Schools not coming under the purview of the above four categories may be reported here. This may include 'Not Known' cases also.

Expenditure on education: Expenditures on education during the current academic year included those that were incurred/to be incurred by the household itself, by other households or by any institutions/organizations other than the Government. When expenditure was incurred by other households or by any institutions/organizations,

the amount of such expenditures was ascertained/imputed. However, if such expenditures were incurred by the Government (in the form of free books/free tuition fee/uniform, etc.), no imputation was made and the value was considered as zero (0) for recording. Expenditure included course fee (including tuition fee, examination fee, development fee, and other compulsory payments), books, stationery and uniform, transport, private coaching, and other expenditure (such as study tours, school project, etc.).

Expenditure on erstwhile members of the household: It was ascertained from the selected households whether any erstwhile household member aged 3 years and above is currently attending school education. Erstwhile members of a household are those who were members of the selected household sometime in the past. The total amount of expenditure incurred/to be incurred by the household on the erstwhile members, during the current academic year, includes expenditure on education, private coaching, and boarding & lodging charges.

1. Introduction

The National Sample Survey (NSS) undertook the Comprehensive Modular Survey - Education (CMS-E) as a part of its 80th round during the period April, 2025 to June, 2025.

1.1 Geographical coverage: The survey covered the whole of the Indian Union except the villages in the Andaman and Nicobar Islands, which remain extremely difficult to access throughout the year.

1.2 Schedule of enquiry: The following Schedules of enquiry were canvassed for the survey on CMS-E.

Schedule 0.0	List of Households
Schedule CMS-E	Comprehensive Modular Survey-Education

1.3 Participation of States: There was no State participation in the CMS-E.

2. Sample Design, Sampling Frame, Stratification Criteria

2.1 Formation of sub-units (SUs):

2.1.1.1 Rural areas: The projected population of a village with a Census 2011 population of 1000 or more was determined by applying suitable growth rates to the census 2011 population. Thereafter, it was notionally divided into a number of sub-units (SU) of more or less equal population. The number of SUs to be formed in a village was determined *a priori*. The following criteria were adopted for deciding the number of SUs to be formed:

projected population of the village	no. of SUs to be formed
less than 1200	1
1200 to 2399	2
2400 to 3599	3
3600 to 4799	4
.....and so on	

2.1.1.2 Special case:

For rural areas of (i) Himachal Pradesh, (ii) Sikkim, (iii) Andaman & Nicobar Islands, (iv) Uttarakhand (except the districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), (v) Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban of Jammu and Kashmir (vi) Leh and Kargil districts of Ladakh region and (vii) Idukki district of Kerala, numbers of SUs to be formed in a village were determined in such a way that each SU contains 600 or less projected population. Further, SUs were not formed in the villages of the above-mentioned districts/States with a population of less than 500 as per Census 2011. In the remaining villages, the criteria for deciding the number of SUs to be formed were as below:

projected population of the village	no. of SUs to be formed
less than 600	1
600 to 1199	2
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
.....and so on	

For rural parts of Kerala, a similar procedure as mentioned in para 2.1.1.1 above was adopted with the modification that the SUs were formed within Panchayat Wards instead of villages.

2.1.1.3 Urban areas: SUs were formed in the urban sector also. The procedure was similar to that adopted in rural areas except that the criteria for determining the number of SUs to be formed were based on the number of households in the UFS frame, as the UFS frame did not have information on population. Each UFS block with a number of households more than or equal to 250 was divided into a number of SUs. The following criteria were adopted for deciding the number of SUs to be formed in the UFS blocks of the frame, and the number of SUs to be formed was decided before the selection of the samples:

number of households in the UFS block	no. of SUs to be formed
less than 250	1
250 to 499	2
500 to 749	3
750 to 999	4
1000 to 1249	5
.....and so on	

2.2 Sample design: A stratified multi-stage design was adopted in the 80th round survey. *The first stage units (FSU) were villages/UFS blocks/sub-units (SUs) as per the situation.* The ultimate stage units (USU) were households in both sectors.

2.3 Sampling Frame for First Stage Units (FSUs):

2.3.1 There was no SU formation in uninhabited villages and villages (Panchayat wards for Kerala) with a population of less than 1000 as per Census 2011 (less than 500 as per Census 2011 for the areas mentioned in para 2.1.1.2), and the entire village was considered as one FSU. All such villages (Panchayat wards for Kerala) were regarded as the First Stage Units (FSUs).

2.3.2 In the remaining villages, notional sub-units (SUs) were formed using the procedure as described above in para 2.1. Such SUs were considered as the First Stage Units (FSUs).

2.3.3 For the UFS blocks with less than 250 households, the entire UFS block was considered as one FSU. In the remaining UFS blocks, the SUs were considered as the First Stage Units (FSUs).

2.3.4 The list of FSUs described above constitutes the sampling frame for respective sectors, i.e., rural and urban areas.

2.4 Stratification of FSUs:

2.4.1 Rural areas:

A Special Rural stratum, at all-India level, was formed comprising all the uninhabited villages as per the Census 2011 belonging to all States/UTs.

For the remaining villages which are inhabited as per the Census 2011, districts were the basic geographical unit for stratum formation. Within each district, two strata were formed:

- (a) The villages (i) within a distance of 5 Kms from the district headquarters or (ii) within a distance of 5 Kms from a city/town with more than 5 lakh population, form a stratum (stratum 1).

- (b) The rest of the villages constitute another stratum (stratum 2) of the particular district.

2.4.2 Urban Sector:

Two or more strata were formed in the urban areas of each district:

- (i) Each million-plus city as per the Census 2011 constituted a separate stratum.
- (ii) The rest of the urban areas of the district formed another stratum.

2.5 Sub-stratification of FSUs:

2.5.1 Rural sector: Three groups of villages were formed within each stratum, except the special rural stratum, at the all-India level, as mentioned in para 2.1.1.2.

Group 1: all villages (Panchayat wards for Kerala) with Census 2011 population less than 250

Group 2: all villages (Panchayat wards for Kerala) with Census 2011 population more than or equal to 250 but less than 500

Group 3: remaining villages

The sample size for a rural stratum was allocated among 3 groups in proportion to the population. Let r_1 , r_2 and r_3 be the allocations to Group 1, Group 2 and Group 3, respectively. The villages within each group were first arranged in ascending order of population. For all the three groups within each stratum, ' $r_1/8 > 1$ ', ' $r_2/8 > 1$ ' and ' $r_3/8 > 1$ ' imply formation of 2 or more sub-strata in each group. Sub-strata were demarcated in Group 1, Group 2 and Group 3, respectively, in such a way that each sub-stratum comprised a group of villages (all SUs of a village considered together) of the arranged frame and had more or less equal population.

If the number of FSUs in a particular Group was very small or a sufficient number of samples were not allocated, no sub-stratum was formed in that Group.

2.5.2 Urban sector: Let ' u ' be the sample size allocated for an urban stratum. For all strata, if ' $u/8 > 1$ ', implying formation of 2 or more sub-strata, all the UFS blocks within

the stratum were first arranged in ascending order of total number of households in the UFS blocks as per the urban frame. Then sub-strata were demarcated in such a way that each sub-stratum comprised a group of UFS blocks (all SUs of a block considered together) having a more or less equal number of households. If the number of blocks in a particular stratum was very small, no sub-stratum was formed in that stratum.

2.3.6 Total sample size (FSUs): 4409 FSUs were allotted at the all-India level for the CMS-E survey. State/UT-wise allocation of sample FSUs is given in Table 1.

2.3.6.1 Allocation of total sample to States and UTs

The total number of sample FSUs allocated to the States and UTs in proportion to the projected population figures as on 1st October 2024 as available from the report, 'Population Projections for India and States 2011-2036' of the Technical Group on Population Projections, Ministry of Health and Family Welfare, Government of India, subject to a minimum sample allocation to each State/UT. A minimum of 4 FSUs (2 each for the rural and urban sectors) was allocated to each State/ UT.

2.3.6.2 Allocation of State / UT level sample to rural and urban sectors

The State/ UT level samples were allocated between two sectors in proportion to the projected population figures as on 1st October 2024, as available from the report mentioned earlier.

Within each sector of a State/ UT, the respective sample size was allocated to the different strata in proportion to the population as per the Census 2011. The stratum level allocation was adjusted to multiples of 2 for the quarter, with a minimum allocation of 2 FSUs. For the special stratum (stratum code '999') formed in rural areas, 6 FSUs were allocated.

2.3.7 Selection of FSUs within a stratum/sub-stratum:

From all the sub-strata in both rural and urban sectors within each stratum, the required number of FSUs was selected by the Simple Random Sampling without Replacement (SRSWOR) scheme.

2.3.8 Formation of Sub-divisions in the selected SU: It has been experienced in the previous NSS surveys that there happen to be some extreme cases where the approximate ascertained present population in the selected SU was very high and listing becomes very difficult. To deal with such extreme situations, a SU was sub-divided into a number of smaller units (sub-divisions) each having more or less equal population content and one of them was randomly selected. Listing and selection of households were done in the selected sub-division unit only. The procedure for the formation of sub-divisions was the same as that of the formation of SUs within a village/block.

The criteria for determining the number of sub-divisions (D_1) to be formed in the selected rural/urban SUs was as follows:

approx. population of the SU	no. of sub-divisions (D_1) to be formed
less than 1500	1
1500 to 2399	2
2400 to 3599	3
3600 to 4799	4
.....and so on	

2.3.9 Special case:

2.3.9.1 For rural areas of (i) Himachal Pradesh, (ii) Sikkim, (iii) Andaman & Nicobar Islands, (iv) Uttarakhand (except four districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), (v) Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban of Jammu (vi) Leh and Kargil districts of Ladakh region and (vii) Idukki district of Kerala, the criteria for determining the number of sub-divisions (D_1) to be formed in rural SUs was as follows:

approx. population of the SU	no. of sub-divisions to be formed
less than 750	1
750 to 1199	2
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
.....and so on	

2.3.10 Formation of second-stage strata (SSS) of households and allocation among SSS: 4 SSS with the following criteria were formed:

- SSS1: any member of the household aged 3 years and above currently enrolled in school education and Usual Monthly Per Capita Expenditure (UMPCE) of the household was greater than a cutoff value 'A'.
- SSS2: any member of the household aged 3 years and above currently enrolled in school education and UMPCE of the household was less than or equal to a cutoff value 'A'.
- SSS3: no member of the household aged 3 years and above currently enrolled in school education and UMPCE of the household was greater than a cutoff value 'A'.
- SSS4: no member of the household aged 3 years and above currently enrolled in school education and UMPCE of the household was less than or equal to a cutoff value 'A'.

A total of 12 households from a selected FSU were surveyed: 4 from SSS1, 4 from SSS2, 2 from SSS3, and 2 from SSS4.

2.3.11 Listing of households: All the households of the sample FSU were included in the list of households. Temporarily locked households were also included after ascertaining the temporariness of the absence of the households through local enquiry.

2.3.12 Selection of households: The sample households from each SSS were selected by Simple Random Sampling Without Replacement (SRSWOR).

3. Estimation Procedure

3.1. Notations:

s	subscript for s^{th} stratum
t	subscript for t^{th} sub-stratum
i	subscript for i^{th} FSU [SU/ village/ panchayat ward/ UFS block]
j	subscript for j^{th} second-stage stratum in an FSU
k	subscript for k^{th} sample household within an FSU

D_1	total number of sub-divisions formed in the sample FSU. $D_1=1$, if no sub-division is formed in the SU
N	total number of FSUs in any rural/urban sub-stratum
n	number of sample FSUs surveyed including 'uninhabited' and 'zero cases' but excluding casualty for a particular sub-stratum
H	total number of households listed in a second-stage stratum of an FSU
h	number of households surveyed in a second-stage stratum of an FSU
x, y	observed value of characteristics x, y under estimation
$\hat{X}, \hat{Y}$	estimate of population total X, Y for the characteristics x, y

Let y_{stijk} be the observed value of the characteristic y for the k -th household of the j -th second-stage stratum of the i -th FSU for the t -th sub-stratum of s -th stratum. For ease of understanding, a few symbols have been suppressed in the following paragraphs where they are obvious.

3.2. Formulae for Estimation of Aggregates for a stratum $\times$ sub-stratum:

3.2.1. Schedule 0.0 (Rural/Urban):

3.2.1.1. For estimating the number of households in a stratum $\times$ sub-stratum possessing a characteristic:

$$\hat{Y} = \frac{N}{n} \sum_{i=1}^n D_1 \times y_i$$

where, y_i is the total number of households possessing the characteristic y in i -th FSU.

3.2.2. Schedule CMS-E:

3.2.2.1. For j -th second-stage stratum of a stratum $\times$ sub-stratum:

$$\hat{Y}_j = \frac{N}{n_j} \sum_{i=1}^{n_j} \left[D_1 * \frac{H_{ij}}{h_{ij}} * \sum_{k=1}^{h_{ij}} y_{ijk} \right]$$

where n_j is the number of sample FSUs with non-void j -th second-stage stratum.

3.2.2.2. Aggregate $\hat{Y}$ is obtained by combining all the second-stage strata:

$$\hat{Y} = \sum_j \hat{Y}_j$$

Note: for Schedule CMS: E, $j = 1, 2, 3, 4$.

3.3. Overall Estimate of Aggregates for a stratum:

3.3.1. Overall estimate for a stratum ($\hat{Y}_s$) will be obtained as

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

3.4. Overall Estimate of Aggregates at State/ UT/ all-India level:

The overall estimate $\hat{Y}$ at the State/UT/ all-India level is obtained by summing the stratum estimates $\hat{Y}_s$ over all strata belonging to the State/UT/ all-India.

3.5. Estimates of Ratios:

Let $\hat{Y}$ and $\hat{X}$ be the overall estimates of the aggregates Y and X for two characteristics y and x , respectively, at the State/ UT/ all-India level.

Then, the combined ratio estimates ($\hat{R}$) of the ratio ($R = \frac{Y}{X}$) will be obtained as

$$\hat{R} = \frac{\hat{Y}}{\hat{X}}.$$

3.6. Estimation of Errors:

3.6.1. Formula for estimated variance (for Rural / Urban):

3.6.1.1. Here, the required number of FSUs was selected by SRSWOR within the given stratum $\times$ sub-stratum. Subsequently, USUs are selected by SRSWOR within each of the selected FSUs. If the i th FSU has been selected, h_{ij} households are selected from this particular FSU $\times$ SSS (j^{th}) by SRSWOR method.

(a) Formula for aggregate $\hat{Y}$ (for Rural/Urban):

$$\hat{Y}_{ij} = H_{ij} * \bar{y}_{ij} * D_{1si} \quad \text{and} \quad \bar{y}_{ij} = \frac{\sum_1^{h_{ij}} y_{ijk}}{h_{ij}}$$

$$Var(\hat{Y}) = \sum_s Var(\hat{Y}_s) = \sum_s \sum_t \sum_j Var(\hat{Y}_{stj})$$

$$V\hat{ar}(\hat{Y}_{stj}) = N_{st}^2 \left(\frac{1}{n_{stj}} - \frac{1}{N_{st}} \right) \left(\frac{1}{n_{stj}-1} \right) \sum_1^{n_{stj}} (H_{stij} * D_{1sti} * \bar{y}_{stij} - \frac{1}{n_{stj}} \sum_1^{n_{stj}} H_{stij} * D_{1sti} * \bar{y}_{stij})^2 + \frac{N_{st}}{n_{stj}} \sum_1^{n_{stj}} H_{stij}^2 * D_{1sti}^2 * \left(\frac{1}{h_{stij}} - \frac{1}{H_{stij} * D_{1sti}} \right) s_{wij}^2$$

$$\text{where } s_{wij}^2 = \frac{1}{(h_{stij}-1)} \sum_{k=1}^{h_{stij}} (y_{stijk} - \bar{y}_{stij})^2$$

(b) Formula for ratio $\hat{R}$ (for Rural/Urban):

Note that $MSE(\hat{R})$ is unbiasedly estimated by $V(\hat{Y} - R\hat{X}) * \frac{1}{\hat{X}^2}$

$$V(\hat{Y} - R\hat{X}) = v(\hat{u}) \text{ where } u_{ijk} = (y_{ijk} - Rx_{ijk}),$$

$U_i = (Y_i - RX_i)$ and $U = (Y - RX) = 0$ at the domain level (State).

$$\hat{X}^2 M\hat{S}E(\hat{R}) = \hat{V}(\hat{U}) \text{ at } R = \hat{R}$$

$$\hat{Y}_{stij} = \frac{1}{N_{st}} * \sum_k y_{stijk} * n_{stj} * \text{multiplier}$$

$$\hat{X}_{stij} = \frac{1}{N_{st}} * \sum_k x_{stijk} * n_{stj} * \text{multiplier}$$

$$M\hat{S}E(\hat{R}) = \frac{1}{\hat{X}^2} \sum_s \sum_t M\hat{S}E_{st}(\hat{R})$$

Finally;

$$M\hat{S}E_{st}(\hat{R}) = \sum_j N_{st}^2 \left(\frac{1}{n_{stj}} - \frac{1}{N_{st}} \right) \frac{1}{(n_{stj}-1)} \sum_1^{n_{stj}} (H_{ij} D_{1sti} \bar{u}_{ij} - \frac{1}{n_{stj}} \sum_i^{n_{stj}} H_{ij} D_{1sti} \bar{u}_{ij})^2 + \sum_j \frac{N_{st}}{n_{stj}} \sum_1^{n_{stj}} H_{ij}^2 * D_{1sti}^2 \left(\frac{1}{h_{ij}} - \frac{1}{H_{ij} * D_{1sti}} \right) s_{uij}^2$$

$$\text{where } s_{uij}^2 = \frac{1}{(h_{ij}-1)} \sum_{k=1}^{h_{ij}} (u_{ijk} - \bar{u}_{ij})^2$$

$$\bar{u}_{ij} = \bar{y}_{ij} - \hat{R} \bar{x}_{ij}$$

The formulae for multipliers are as given in Section 4.

3.6.2. Estimates of Relative Standard Error (RSE):

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{v\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

4. Multipliers:

4.1. The formulae for multipliers at stratum/sub-stratum/second-stage stratum level for different schedules are given below.

Schedule	Sector	Formula for multipliers
0.0	Rural / Urban	$\frac{N_{st}}{n_{st}}$
CMS-E	Rural / Urban	$\frac{N_{st}}{n_{stj}} * D_1 * \frac{H_{stij}}{h_{stij}}$
	j=1, 2, 3, 4	

Note:

- (i) For estimating any characteristic for any domain, not specifically considered in sample design, indicator variable was used.
- (ii) Multipliers were computed on the basis of information available in the listing Schedule, irrespective of any misclassification observed between the listing Schedule (Schedule 0.0) and the detailed enquiry Schedule (Schedule CMS: E).

4.2. The multipliers were computed using the sample allocated for the period April–June 2025 only.

Appendix D: Facsimile of Schedule CMS: E

**GOVERNMENT OF INDIA
NATIONAL STATISTICS OFFICE
SOCIO-ECONOMIC SURVEY
EIGHTIETH ROUND
SCHEDULE CMS-E: COMPREHENSIVE MODULAR SURVEY-EDUCATION
APRIL – JUNE 2025**

[Block 1] Identification of sample household

[Information on items 1 to 8 and 11 will be available from the sample list. Information on items 12, 12.1 and 13 will be available from the schedule for listing (Sch 0.0). Items 14 and 15 are to be filled by the field officials.]

Qs. No.	Item description	Code/Entry
Q1	Sector (<i>rural-1, urban-2</i>)	
Q2	Type of Sample (<i>central -1, state -2</i>)	
Q3	State/U.T. Name	
Q4	District Name	
Q5	Name of Sub-District/Tehsil/Town	
Q6	Village Name:	
Q7	Investigator Unit Number/Block Number:	
Q8	Sample Sub-Unit (SU) Number:	
Q9	Round Number	80
Q10	Schedule name/Module:	CMS-E
Q11	Serial Number of Sample FSU:	
Q12	Sample Sub-Division Number:	
Q12.1	Second-stage stratum number:	
Q13	Sample Household Number:	
Q14	Survey Code (<i>original -1, substitute -2, casualty -3</i>)	
FOR CODES 2 or 3 in Q14, GO TO Q15. OTHERWISE, GO TO BLOCK 3.		
Q15	Reason for substitution/casualty of the original household* (<i>informant busy -1, members away from home -2, informant non-cooperative -3, others -9</i>)	
*: The interviewer will fill up this item if a substituted household is canvassed or the household is a casualty		

[Block 3] Demographic & other particulars of household members and household characteristics					
Q. No.	Item description				
Q1	List the names of all household members along with other particulars				
Serial number	Name of the household member	Relation to head (code)	Gender <i>(male-1, female-2, transgender-3)</i>	Age (years) <i>[completed number of years of age]</i>	For entry ≥ 3 in Col (5) Whether currently enrolled in school education? <i>(yes-1, no-2)</i>
(1)	(2)	(3)	(4)	(5)	(6)
1.	[Head of the household]				
2.					
3.					
					Code/Entry
Q2	Household size				
Q3	Household type (code)				
Q4	Household Religion (<i>Hinduism -1, Islam -2, Christianity -3, Sikhism -4, Jainism -5, Buddhism -6, Zoroastrianism -7, others -9</i>)				
Q5	Household Social group (<i>scheduled tribe (ST) -1, scheduled caste (SC) -2, other backward class (OBC)-3, others-9</i>)				
Q6	For entry 1 in Q2 along with entry 1 in col. 6 of Q1 Whether staying in students' hostel/ mess (<i>yes-1, no-2</i>)				
Q7	Whether any erstwhile household member of age 3 years and above is currently attending school education (<i>yes-1, no-2</i>)				
Q8	For entry 1 in Q7 Number of erstwhile household members of age 3 years and above currently attending school education				
[Block 3.1] Remarks on Block 3					

[Block 4] Details of erstwhile household members aged 3 years and above who are currently attending school education (for entry 1 in Qs. No. 7, block 3)						
Qs. No.	Item description	Code/ Entry				
		P1	P2	P3	P4	P5
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Q1	Serial number					
Q2	Name					
Q3	Gender <i>(male-1, female-2, transgender-3)</i>					
Q4	Age (years) <i>[completed number of years of age]</i>					
Q5	Type of residence <i>(students' hostel -1, paying guest/Mess -2, others-3)</i>					
Q6	Present place of residence <i>(rural -1, urban -2)</i>					
Q7	Level of current enrolment (code)					
Q8	Whether any expenditure incurred/ to be incurred by the household during the current academic year for the member <i>(yes-1, no-2)</i>					
Q9	For entry 1 in Q8 , expenditure incurred/ to be incurred during the current academic year for the member	Amount in Rs				
	(i) on education-related expenditure including boarding/ lodging charges etc. (lump sum expenditure)					
	(ii) on school education only {out of expenditure reported in Q9(i)}					
	(iii) on private coaching/ tuition classes only {out of expenditure reported in Q9(i)}					
	(iv) on boarding and lodging {out of expenditure reported in Q9(i)}					
Q10	Whether the sampled household is funding the majority of the education-related expenditure (incurred/ to be incurred) during the current academic year <i>(yes-1, no-2)</i>					
[Block 4.1] Remarks on Block 4						

Codes for Block 4:

Q 7: level of current enrolment: class I-01, class II-02, class III-03, class IV-04, class V-05, class VI-06, class VII-07, class VIII -08, class IX-09, class X-10, class XI-11, class XII-12, diploma /certificate course (upto secondary) - 13, diploma/certificate (higher secondary equivalent) - 14, below class I – 15

[Block 5] Information on expenditure on education and private coaching for household members aged 3 years and above who are currently enrolled in school education [i.e. entry 1 in (col. 6) of Qs. No. 1 of Block 3]

Qs. No.	Item description	Code/Entry				
		P1	P2	P3	P4	P5
Q1	Srl. No. of household member (as in col. 1, bl. 3)					
Q2	Name of the household member (as in col. 2, bl. 3)					
Q3	Relation to head (code) (as in col. 3, bl. 3)					
Q4	Gender of household member (as in col. 4, bl. 3)					
Q5	Age (years) of household member (as in col. 5, bl. 3)					
Q6	Level of current enrolment <i>(class I-01, class II-02, class III-03, class IV-04, class V-05, class VI-06, class VII-07, class VIII -08, class IX-09, class X-10, class XI-11, class XII-12, diploma /certificate course (upto secondary) - 13, diploma/certificate (higher secondary equivalent) - 14, below class I – 15)</i>					
Q7	Type of school currently enrolled <i>(government-1, government-aided school (private school aided by government) – 2, private unaided (recognized) – 3, private unaided (unrecognised) – 4, others – 5)</i>					
Q8	Whether any expenditure incurred/ to be incurred on school education during the current academic year <i>(yes - 1, no – 2)</i>					
Q9	For entry 1 in Q8 Person-wise details of expenditure (Rs.) incurred / to be incurred on school education (excluding expenditure on private coaching/tuition class) during the current academic year	Amount in Rs				
	(i) Course fee (including admission fee, tuition fees, examination fee, development fee and other compulsory payments)					
	(ii) Transport					
	(iii) Uniform					
	(iv) Textbooks, stationery					
	(v) Other expenditure					
	(vi) Total [9(i)+9(ii)+9(iii)+9(iv)+9(v)]					
Q10	Whether received private coaching/ tuition classes during the current academic year? <i>(yes-1, no-2)</i>					
Q11	For entry 1 in Q10 Whether any expenditure incurred/ to be incurred on private coaching/ tuition classes during the current academic year? <i>(yes-1, no-2)</i>					
Q12	For entry 1 in Q11 Person-wise details of expenditure incurred / to be incurred during the current academic year on private coaching/tuition class	Amount in Rs.				
	(i) Course Fee (including registration fee, admission fee, tuition fee, examination fee and other compulsory payments)					

[Block 5] Information on expenditure on education and private coaching for household members aged 3 years and above who are currently enrolled in school education [*i.e. entry 1 in (col. 6) of Qs. No. 1 of Block 3*]

Qs. No.	Item description		Code/Entry				
			P1	P2	P3	P4	P5
	(ii)	Transport					
	(iii)	Uniform					
	(iv)	Textbooks and study material					
	(v)	Other expenses					
	(vi)	Total [12(i)+12(ii)+12(iii)+12(iv)+12(v)]					
	Q13	For entry 1 in Q6 of block 3 (i.e. single-member household staying in hostel) Expenditure incurred / to be incurred on hostel fees (lodging/boarding and other associated fees)					
Q14.1	First major source of funding of the expenditure incurred/ to be incurred during the current academic year (<i>code</i>)						
Q14.2	Second major source of funding of the expenditure incurred/ to be incurred during the current academic year, if any (<i>code</i>)						
[Block 5.1] Remarks on Block 5							

Codes for Block 3

Qs. No. 1, Col (3): Relation to head: self - 1, spouse of head - 2, married child - 3, spouse of married child - 4, unmarried child - 5, grandchild - 6, father/mother/father-in-law/mother-in-law – 7, brother/sister/ brother-in-law/ sister-in-law/ other relatives - 8, servant/ employees /other non-relatives – 9

Qs No. 3: household type:

for rural areas:

self-employed in agriculture-1,
self-employed in non-agriculture-2,
regular wage/salary earning in agriculture -3,
regular wage/salary earning in non-agriculture -4,
casual labour in agriculture-5,
casual labour in non-agriculture-6,
others-9.

for urban areas:

self-employed-1,
regular wage/salary earning-2,
casual labour-3,
others-9.

Codes for Block 5:

Q. No. 14.1 and 14.2: major source of funding: funded from the earning of the student- 01, funded by other members of the household -02, funded by erstwhile household members-03, received as gifts from friends/relatives - 04, scholarships from school -05, scholarships from government-06, scholarships from charitable and other organisations-07, educational loan- 08, other loan-10, others- 19,

if no second source of funding - 99 (applicable only in Q 14.2)

[Block 6] Household consumption expenditure		
Qs. No.	Question description	Code/Entry
(1)	(2)	(3)
Household consumption expenditure (to be recorded in whole no. of rupees)		
Q1	Usual consumption expenditure in a month for household purposes out of purchase (including online purchase) of goods and services excluding items like clothing, footwear (A)	
Q2	Imputed value of usual consumption in a month from home grown stock like rice, cereals, pulses, vegetables, milk, firewood, chips, cow dung, etc. (B)	
Q3	Imputed value of usual consumption in a month from wages in kind, free collection, gifts, etc. (C)	
Q4	Expenditure on purchase (including online purchase) of items like clothing, footwear etc. during last 365 days (D)	
Q5	Expenditure on purchase (including online purchase) of household durables during last 365 days (E)	
Q6	Usual monthly consumption expenditure $[A + B + C + ((D+E)/12)]$ (make entry in rounded to the nearest rupee)	Auto-calculated
Notes: (i) Q 1 - Q 6: Entries to be made in whole number of rupees. In case of no value, 'zero' is to be given. (ii) Q 2: For households who use items of household consumer goods from home grown stock on regular basis, the imputed value of such usual consumption in a month at ex farm/ex-factory price is to be recorded. (ii) Q 3: For households who regularly consume goods and services received as wages in kind, in exchange of goods provided by them, as gifts or obtained through free collection etc.; the imputed value of such usual consumption in a month at local retail prices is to be recorded.		
[Block 6.1] Remarks on Block 6		

[Block 7] General Remarks by Junior Statistical Officer (JSO)/ Survey Enumerator (SE)

[Block 8] General Comments by Senior Statistical Officer (SSO)/ Survey Supervisor (SS)

--

[Block 2] Particulars of field operations

Qs. No.	Question description	Junior Statistical Officer (JSO)/ Survey Enumerator (SE)	Senior Statistical Officer (SSO)/ Survey Supervisor (SS)								
(1)	(2)	(3)	(4)								
1(a)	(i) Name (block letters)										
	(ii) Code										
1(b)	(i) Name (block letters)										
	(ii) Code										
2	Date(s) of:	DD MM YY	DD MM YY								
	(i) Survey/ inspection										
	(ii) Receipt										
	(iii) Scrutiny										
	(iv) Despatch										
3	Total time taken to canvass the schedule by the team of Enumerators (JSO/SE) (in minutes) [no decimal point]										
4	Number of Enumerators (JSO/SE) in the team who canvassed the schedule										
5	Whether any remark has been entered by JSO/SE/SSO/SS	(i) In block 7 /8 (yes -1, no -2)									
		(ii) In block 3.1-6.1 (yes -1, no -2)									
6	Name of informant: [Instruction: A pop-up with the details of household members as listed in Block 3.1, Col. 2 will appear along with an option 'not a household member' against 'srl. no. of the household member' '99'. The Enumerator should select the 'informant' from that list]										
	<table border="1"> <thead> <tr> <th>Srl no. of the household member</th><th>Name</th><th>Select the informant</th></tr> </thead> <tbody> <tr> <td></td><td></td><td>o</td></tr> <tr> <td>99</td><td>not a household member</td><td>o</td></tr> </tbody> </table>	Srl no. of the household member	Name	Select the informant			o	99	not a household member	o	
Srl no. of the household member	Name	Select the informant									
		o									
99	not a household member	o									
7	Response code of the informant as assessed by SE/JSO <i>informant co-operative and capable -1, informant co-operative but not capable -2, informant busy -3, informant reluctant -4, others -9</i>										

Dissemination of NSS Results:

The Report is available on the website of the Ministry of Statistics & Programme Implementation (www.mospi.gov.in).
